

# Oleksandr Sukhinin

## Senior FrontEnd Developer

Date of birth: November 4, 1989  
Place of birth: Ukraine

### Work experience

#### SENIOR FRONT END DEVELOPER / ENGINEERING MANAGER

August 2021 - October 2023

Affinidi - Remote, Singapore

As a Senior Front-End Developer and subsequently Engineering manager at Affinidi, a dynamic startup focusing on Web3 and data preservation applications, I directed a cross-functional, global analytics team of up to 10 members. Our team, rich with cultural diversity and operating across multiple time zones, included backend, frontend, and data engineers. My role entailed harnessing our analytics solutions to cater to over 100 micro-services, which led to comprehensive collection of internal and external data. My efforts facilitated bespoke solutions for more than 10 stakeholders. Additionally, I spearheaded the development of custom dashboards, offering insightful reports that informed strategic decision-making processes.

Responsibilities were:

- Architecture and Scalability
- Technical FrontEnd Leadership
- Team Leadership
- Security and protection of user data

Key achievements:

- Successfully contributed to the architecture and scalability of the system
- Provided technical leadership, guiding the team in making critical decisions
- Managed the data analytics team, which included 3 back-end developers, 2 front-end developers, 1 QA and 1 data analyst
- Ensured the security and protection of user data, a crucial aspect for a startup
- Demonstrated a flexible mindset in a fast-growing startup environment
- Took responsibility for key decisions that positively impacted the company's growth

Professional stack: React, Next.js, TypeScript, GraphQL, Node.js, Jest

#### FRONT-END DEVELOPER

March 2019 - August 2021

Scalors GmbH - Kiev, Ukraine

Communicate more directly with clients and receive feedback from users of the applications I developed

Responsibility were:

- Develop advanced applications
- Care about performance optimization
- UI/UX Collaboration

Key achievements:

- Develop a prototype of an application for creating new tire designs after presenting the idea to the head department, the project was taken into development.
- Lead app development from scratch to end product

## **FRONT-END DEVELOPER**

*November 2016 - March 2019*

**Brigths - Kiev, Ukraine**

Started a new stage in career as a Front-End developer

Responsibility were:

- Development of responsive and high-quality web application
- Add JavaScript Interactivity using react and Vue.js
- Collaborative problem-solving

Key achievements:

- Migrated 2 projects from client-side to rendering to prerendering with Next.js
- Took part in creating a library component
- Rewrote a legacy project with a 10-year-old codebase to React 16, which was modern at the time
- Created several applications that could work both standalone and as a micro-frontend
- Achieved 98% unit test coverage and produced comprehensive technical documentation.

Professional stack: Vue, React, JavaScript, GraphQL, Nuxt, Next.js, Jest

## **NATIONAL BUSSINES TREINER**

*October 2014 - November 2016*

**Sony - Kiev, Ukraine**

I achieved a rapid transition from salesman to Business Trainer in five years, effectively training, motivating, and developing a 110-member team of Sony representatives nationwide, driving their professional growth and surpassing performance targets.

Key achievements:

- Supported the motivation for high productivity and continuous development for teams of trainers, which in the last year in the position led to a 9% increase in sales across the country
- Developed, organized and conducted trainings for Sony representatives in the Kyiv region, helped to increase sales and increase personal motivation of sellers
- Managed a team of trainers that trained salespeople across the country
- Conducted presentations of all new products of the company for the mass media
- Managed the work of 97 sellers and 13 trainers across the country
- Developed and conducted motivational training for internal staff on how to quit smoking and buy an iMac in 2 years

## **BUSINESS TRAINER**

*September 2011 - October 2014*

**Sony - Kiev, Ukraine**

Designed, coordinated, and delivered training sessions for Sony representatives in the Kyiv region, contributing to an increase in sales and bolstering the personal motivation of sellers.

Key achievements:

- Built a team of 12 professional salespeople from scratch

- Conducting trainings on a regular basis, increased sales of Sony TVs by 17% in the Kyiv region
- Built good relationships with sellers of Top 10 electronics stores in Kyiv, which led to increased loyalty to the Sony brand

---

## Education
